PROFESSIONAL SUMMARY

Cloud and DevOps-focused IT professional with 1 year of experience in **AWS, Docker, Terraform, Javascript** and **CI/CD** workflows. Experienced in supporting cloud infrastructure, deployment automation, and backend environments with exposure to **cloud PoC projects**. JLPT holder. Currently improving Japanese communication skills for technical and professional environments.

RELEVANT EXPERIENCE

- Junior Cloud Support Engineer:** Artecon Technology Engineering **Sep 2025 - Present**
 - Monitored cloud infrastructure and application performance using **AWS CloudWatch** and responded to system alerts.
 - Assisted in managing AWS services including **EC2, S3, IAM, and VPC** to support daily cloud operations.
 - Troubleshoot and resolved basic **cloud, network, and user access** issues through ticket-based support.
 - Performed routine deployment, backup, and configuration tasks while maintaining operational documentation.
 - Collaborated with development and **DevOps** teams to support application releases and ensure service availability.
- Data Analyst Virtual Intern :** Deloitte - Remote **Jul 2025 - Oct 2025**
 - Completed a Deloitte job simulation involving **data analysis** and **forensic technology**
 - Created a data dashboard using **Tableau**
 - Used **Excel** to classify data and draw business conclusions
- Technical Assistant (LMS Developer) :** D. Y. Patil Institute – Online Learning Center, Pune **Jun 2024 - Apr 2025**
 - Developed and maintained responsive LMS frontend interfaces using **HTML, CSS, and JavaScript, React.js**
 - Collaborated with backend** and content teams to integrate and deliver **e-learning modules** efficiently
 - Optimized web applications for **performance, responsiveness, and cross-device compatibility**
 - Utilized **Git** and **GitHub** for version control, code management, and team collaboration
 - Debugged and resolved frontend issues while supporting deployment and maintenance workflows
- Web Development Intern :** PHN Technology Pvt. Ltd. **April 2023 - June 2023**
 - Collaborated with the development team to design and maintain responsive websites using **HTML, CSS, JavaScript, and Bootstrap**.
 - Participated in testing, debugging, and optimizing web pages for performance and accessibility.
 - Gained practical experience with version control (**Git**), team communication, and agile development processes.

EDUCATION

Bachelor of Engineering : SPPU : 80.27%	Dec 2023
Diploma : Govt. Autonomous Institute : 84.00%	Dec 2020
SSC : MSBSHSE : 90.60%	May 2017
Japanese Language : JLPT N3	Ongoing
DevOps Course - Paperlive Learning	Ongoing

SKILLS

- Web Development: JavaScript, HTML5, CSS3, Python, Typescript
- Frameworks & Tools: React.js, Flask, Visual Studio, Github
- Database: SQL Server, SQL
- Processes: Agile, Code Reviews, Office365

- AI : Prompt Engineering, Large Language Models (LLMs), NLP basicon Gen Ai
 - Cloud: AWS (EC2, S3, IAM, VPC, CloudWatch), Basic Azure & GCP
 - DevOps: Docker, Terraform, GitHub Actions, CI/CD
 - Systems: Linux, Networking, IAM, Monitoring & Logging
-

CERTIFICATES

- **HarwardX** : Introduction to Databases with SQL - [Certificate](#)
 - **Udemy** : Ultimate AWS Certified Cloud Practitioner CLF-C02 (2025) - [Certificate](#)
 - **IBM** : Introduction to Cloud Native, DevOps, Agile, and NoSQL - [Certificate](#)
 - **AWS** : AWS Educate Introduction to Generative AI - [Certificate](#)
 - **AWS** : AWS Training & Certification: Cloud Computing Essentials
 - **AWS** : AWS Training & Certification: Cloud First Steps
 - **AWS** : AWS Training & Certification: Computing Solutions
 - **JLPT N5** Certified

PROJECTS

Freelance Frontend Developer – VibeWeb Media (Remote): [Project Link](#)

- Developed a responsive digital marketing website using HTML, CSS, JavaScript, and React with focus on UI/UX.
- Built reusable components, optimized performance, and ensured cross-browser and mobile compatibility.
- Integrated EmailJS for contact functionality and applied basic SEO practices for better visibility.
- Collaborated with client to deliver a modern, engaging website aligned with branding and marketing goals.

Designed and deployed a full-stack serverless web application on AWS: [Project Link](#)

- Hosted the frontend on Amazon S3 with public access via CloudFront for global content delivery.
- Designed secure, scalable RESTful APIs using API Gateway and AWS Lambda for business logic execution.
- Integrated Amazon DynamoDB as the backend NoSQL database for fast and cost-effective data storage.
- Ensured secure, stateless infrastructure with zero server maintenance and high scalability.

E-Shophere E-commerce Website: [Project Link](#)

- Developed a modern, responsive e-commerce platform with intuitive UI/UX focused on usability and performance across devices.
 - Implemented user authentication, product listings, and dynamic cart management with real-time updates.
 - Integrated a secure checkout flow with proper state handling and validation for a smooth purchasing experience.
 - Deployed the application on Vercel, ensuring fast load times, scalability, and continuous deployment..
